FAMILIARISATION OF LIBREOFFICE WRITER

AIM

To create a biodata using libreoffice writer

PROCEDURE

- * Open Libreoffice writer, and type the required details for a biodata
- * For making a table of educational qualification use the insert table option available and make a table with year, programme, university and result as the column heading
- * Add a suitable border to the biodata and save the file

RESULT

A biodata containing all the necessary details of a person was prepared
