FAMILIARISATION OF LIBREOFFICE CALC

AIM

To create an excel sheet to analyse the marks of students of a class and also to create appropriate charts

PROCEDURE

- * Open Libre office Calc
- * Create a table with column headings as Roll No, Name, Subject 1, Subject 2, Subject 3, Subject 4, Subject 5, Total and Average.
- * Enter the marks of 6 students and calculate the total and average marks
- * Based on the total marks, arrange them in descending order
- * Insert a line graph and plot the subject average marks

RESULT

The excel sheet to analyse the marks of the students of a class was prepared.
