

B.Tech. Degree I Semester Examination November 2019

CS/EC/IT 19-200-0104 B BASIC CIVIL ENGINEERING
(2019 Scheme)

Maximum Marks: 60

Time: 3 Hours

PART A (Answer *ALL* questions)

(8 × 3 = 24)

- I. Write notes on
- Raw materials and composition of cement
 - Field workability test for concrete
 - Mark the Component parts of a building
 - Well foundation
 - First principal of surveying
 - Field book
 - Site plan
 - LEED Rating

PART B

(4 × 12 = 48)

- What are the Grades of cement? (4)
 - Discuss the suitability of different cement for the construction. (8)
- OR (4)
- Describe the classification of bricks. (8)
 - How the quality of bricks tested in the lab and field? (8)
- What are the functions of foundation? (4)
 - A leading civil engineering consultant suggested Pile foundation for a structure. Discuss the possibilities of different pile foundations for the same. (8)
- OR
- Compare the bonds in brick masonry. (4)
 - Show the top view for 2 layers of 2 brick thick English Bond, also show the Elevation for 4 layers. (8)
- You are assigned the job of preparation of the sketch of an area, step by step explain the procedure with supporting instruments used. (12)
- OR
- Following consecutive readings were taken with a dumpy level (12)

3.500, 2.650, 1.300, 2.600, 3.065, 1.560, 0.750, 1.005, 2.500, 3.205

The instrument was shifted after taking 3rd and 6th readings. Find the reduced levels of all the points. Also carry out the check.
- Legitimize exterior interior open spaces based on building rule. (4)
 - Advice a client regarding the points to be considered before purchasing a land for the construction of a building. (8)
- OR
- Show the cross section of road. (4)
 - "Plan now or get ready for water scarcity". Support the statement by discussing the sources of water. (8)
